

Scholarship Opportunity

Mayo Clinic Interventional Cardiology Review Course for Boards and Recertification September – 10-12, 2021 • LIVE STREAM CONFERENCE

You are invited to participate in a Scholarship Program to enhance the preparation for the *Interventional Boards* of the trainees in your training program.

We, and others, have found that fellows are able to obtain a comprehensive view of a broad range of subjects by frequent interaction and discussion with their peers. One successful tactic has been to identify a suitable fellow to be responsible for running frequent “board review” sessions with their peers.

We would like to support this concept by offering a scholarship to three exceptional fellows to attend our *Mayo Clinic Interventional Cardiology Review Course for Boards and Recertification - LIVE STREAM* conference. This course is an extensive course, which covers all areas of interventional through both didactic teaching as well as interactive board simulation question/answer sessions. We are offering a scholarship program, in which outstanding fellows, who have started their interventional or cardiovascular fellowship in your program, will be eligible. It would be envisioned that this fellow takes this information back to their institution and conducts teaching and discussion sessions with his/her peers. The scholarship award includes the following:

- Complimentary tuition for LIVE STREAM conference, which includes:
 - Blended live and online curriculum through a learning portal
 - Learners who engage in the live/online content found an increase in their pre/post-test scores of over 35%
 - Lectures presented by Mayo Clinic experts in each content area
 - Access to 2020 online lectures before this year’s live course
 - Access to the 2021 course content through the 2022 board examination date

For more information on this course, please visit the course website:

<https://cveducation.mayo.edu/store/interventional-cardiology-review-course-for-boards-and-recertification>

If you would be interested in submitting a scholarship application, please send a Letter of Recommendation (including the candidate’s name and contact information) along with the attached nomination form to:

E-mail:
schroeder.monica@mayo.edu

Included in this letter should be information regarding their level of training (at least level 2) and confirmation that they will still be in an accredited cardiology fellowship program in 2021. The selection process will be based upon the qualities of:

- knowledge of cardiovascular diseases and interventional cardiology
- interest in education
- leadership that the fellow has been able to demonstrate

The deadline for receipt of the letter/application is **July 30, 2021**.

We look forward to reviewing your application.

Sincerely,

Gregory W. Barsness, M.D.
Abhiram Prasad, M.D.
Eric H. Yang, M.D.
