

Dear Healthcare Education Supporter,

On behalf of the Mayo Clinic Department of Cardiology, I am pleased to announce our "**Basic to Advanced Echocardiography**" course that will be held May 10-13, 2023 at the Marriott on Hilton Head Island, SC. The symposium is designed for adult cardiologists, cardiovascular surgeons, cardiac fellows, anesthesiologists, and cardiac sonographers who have experience and knowledge of echocardiography. For more information, please visit our website at: <https://cveducation.mayo.edu/>

The course will begin with a discussion of echocardiographic assessment of left and right ventricular function, including presentations on diastolic function and strain imaging for assessing myocardial function. We will then discuss a broad range of disease states for which echocardiography is useful, including ischemic heart disease, valvular heart disease, pericardial disease, and cardiomyopathies. The presentations will include basic concepts as well as advanced techniques including 3-D imaging and strain imaging. Throughout the course many cases will be presented.

Upon the conclusion of the course, participants should be able to:

- Apply Doppler principles and hemodynamics to the assessment of valvular heart disease, including systematic assessment of prosthetic valves
- Use 2-D, Doppler and strain methods to assess myocardial function
- Illustrate the appropriate use of echo Doppler in myocardial and pericardial disease
- Describe the utility of echocardiography, including 3-D transesophageal echocardiography, for the interventional practice
- Integrate echocardiography into the diagnosis and management of heart failure
- Recognize clinical applications of stress echocardiography

We would like to encourage your support for an exhibit in the amount of \$2,500. Along with the signed letter of agreement, checks can be made payable to **Mayo Clinic** (Federal ID #41-6011702) and mailed to the attention of: Sheila Fick, 200 First St. SW/SN 03-302CE, Rochester, MN 55905.
