

Welcome to VIth meeting of International Kidney & Monoclonal Gammopathy (IKMG)

May 25-26, 2024

Dear IKMG members and potential participants,

This year's IKMG meeting will be a day and a quarter. It is meant to be a working meeting with a focus on on-going IKMG initiatives and future initiatives. As you can see in the agenda, nearly all sessions contain an on-going IKMG project. The didactics of that session will pertain to the background and the state-of-the-art of that topic.

Instead of abstract submissions and poster viewing, for this meeting, we are *requesting applications* for future projects (*see below*). These will be discussed on the abbreviated day 2 of the meeting. Best concepts will be presented by the applicants, voted on by members, and final decisions will be adjudicated by the Executive Board.

SCIENTIFIC COMMITTEE

Frank Bridoux
Guillermo Herrera
Giovanni Palladini

Angela Dispenzieri
Nelson Leung

Ute Hegenbart
Samih Nasr

REGISTRATION: Registration is free for IKMG members and \$100 for non-members. If you would like to become a member of IKMG, please go to [IKMG website](#) to apply. To register for the meeting itself, follow this [link](#).

Thank you International Society of Amyloidosis for sponsoring this meeting!
